

Project Demo Planning

Date	2 July 2026
Team ID	SWTID-2026-7147
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Smart Lender project, explain the loan approval problem and project objectives.	2	Member 1
2	Solution Overview	Explain the dataset, system workflow, and machine learning models (Decision Tree, Random Forest, KNN, and XGBoost). Mention XGBoost as the selected model.	3	Member 2
3	Live Feature Demonstration	Demonstrate the Flask web application by entering applicant details and displaying the loan prediction result.	4	Member 3
4	Model Performance & Conclusion	Present the model accuracy comparison, explain why XGBoost was chosen, summarize project benefits, and conclude the presentation.	3	Member 1

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the problem of manual loan approval and introduce Smart Lender.
2	Solution Overview	Describe the system architecture, dataset, machine learning models, and XGBoost selection.
3	Live Feature Demonstration	Show the Flask application, enter applicant details, and display the prediction result.
4	Q&A Session	Answer judges' questions and conclude the project demonstration.
