

Project Initialization and Planning Phase

Date	2 July 2026
Team ID	SWTID-2026-7147
Project Name	Smart Lender
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A loan applicant	Get my loan approved quickly	The approval process takes a long time	Banks need to manually verify my financial and credit details	Frustrated and uncertain about my loan status
PS-2	A bank credit officer	Evaluate loan applications accurately	There are many applications to review every day	Manual verification is time-consuming and prone to human error	Overloaded and concerned about making incorrect decisions
PS-3	A financial analyst	Identify high-risk loan applicants	It is difficult to analyze large volumes of applications efficiently	Traditional methods are slow and may miss important risk patterns	Pressured to make fast and accurate lending decisions
