Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Opens the Smart Lender website. • Enters personal and financial details. • Submits the loan application.	• System validates the entered data. • XGBoost model analyzes the application. • Creditworthiness is predicted.	• Customer views the prediction result. • Bank officer reviews the recommendation (if needed). • Loan is approved or sent for further verification.
Touchpoint <i>What part of the service do they interact with?</i>	• Smart Lender web application. • Loan application form. • Applicant data entry page	• Machine Learning prediction engine. • Flask backend. • IBM Cloud platform	• Result page. • Bank officer dashboard. • Loan approval notification.
Customer Thought <i>What is the customer thinking?</i>	• "Will my loan be approved?" • "Have I entered all the details correctly?" • "I hope the process is quick."	• "The system is checking my eligibility." • "I hope my credit history is good." • "The result should be accurate."	• "I received my result quickly." • "If rejected, what should I improve?" • "The decision seems fair."

Customer Feeling <i>What is the customer feeling?</i>	Curious, hopeful, slightly anxious.	Patient, nervous, optimistic.	Happy if approved; disappointed but informed if rejected.
Process Ownership <i>Who is in the lead on this?</i>	Applicant	Smart Lender AI/ML System	Bank Credit Officer & Smart Lender System
Opportunities <i>How can we improve this stage?</i>	•Simplify the application form. • Add input validation. • Provide guidance for each field.	•Improve prediction accuracy. • Reduce processing time. • Ensure secure data handling.	•Explain approval/rejection reasons. • Suggest ways to improve eligibility. • Enable faster loan processing.
